

In Nursery we use the Wanderlust Curriculum to help the children connect with nature and the natural world. This term we will look closely at these areas of the wanderlust nature study, Apples, Mushrooms, Pumpkins, Hedgehogs, Spiders, Leaves, Sticks and Winter trees.

Autumn Term

We will begin the Autumn term settling in our new Nursery members; getting to know each other and the Nursery environment and thinking about what makes us special. We will be celebrating Harvest festival, and learn more about the Muslim faith with a visit from a local Imam. We will also learn about Mid-Autumn Festival, which is also known as 'Moon Festival.'

After October half term we will be thinking about where have all the leaves gone? We will be looking for signs of the changing season. We will be learning about Diwali, a traditional Thai festival, Remembrance Day, and of course Christmas (with a magical trip to Holkham Hall!)

This term we will introduce our feeling peg dolls. We use the feeling peg dolls to help us to identify and name the emotions we all feel. We begin by introducing, happy, sad, angry, worried and calm.

We also use the Pip and Posy Books to help us understand how the emotion might look on the outside and what events might lead up to us feeling a particular way.
