More Details.....

This video discusses the Launchpad for Literacy Skills Framework, the skills it includes & the way it is laid out. Using the Launchpad Skills Framework as a CPD Tool is discussed, supporting our understanding and our thought processes & decision making for all children. However, this session particularly highlights its role for gap identification, enabling us to locate gaps but, most importantly, to establish what a child CAN do & what they need to do next. This enables us to have 'diagnosotic capability' & to understand the incremental process

These discussions are with the amazing Anne Brass from Education Durham. In the first, we discuss the background and ethos of Launchpad and give an overview of the Skills Framework. In the second, we discuss possible applications. This was recorded just before the detail of the EYFS Reforms was made available, so add implementing the EYFS Reforms to the list of possible applications!

This is an overview of Launchpad for Literacy within the EYFS, looking at how it fits in with the EYFS Reforms, Phase One, and its role when identifying and supporting SLC needs & more complex & specific needs. The Launchpad Toolkit's possible role when working with Outside Agencies is also discussed.

In this video, the ethos of Launchpad is discussed, along with the notion of it being a Toolkit to support you. There is also an overview of resources. The concept of the CPD and other resurces being a 'pick 'n-mix' is discussed.

Here we are consider the use of Launchpad within the Early Years, with a sronger focus on pre-reception. The initial videos focus on the possible applications for Launchpad within this Phase of Education. The emphasis is on developing a strategy for Launchpad from the start – What do we want Launchpad to help us with? Who do we want Launchpad to help us with? What do we do already? Part 1
