

*Dear Year 6*

*I hope you are all well, and have been enjoying the sunshine this week! It was lovely to be able to meet most of you during our reduced transition days. If you were not able to come along, please do just contact me if you would like a tour of the school and to have a chat about transition to Acle Academy!*

*As we were not able to invite parents in for our normal Parent Transition information evening, Mrs Watts has created a Welcome to Acle Academy Video, I have uploaded a PowerPoint and video where I go through lots of 'must know' information, I have made a loom video where I explain it in more detail, but also attached the PowerPoint. Hopefully the video alongside the Transition handbook that was sent out together with the admission forms, should answer most of your questions, but if there is anything else your form tutors will be making contact with students and parents before the summer holiday to check in. However, if there is anything else please do not hesitate to contact us via email or the school office.*

*I know from having been around visiting primary schools that lots of you are very nervous about starting high school. Firstly please let me say it again, it would be very strange if you were not a little bit nervous. However, in order to prepare you and get you thinking a little bit about some of the most common things people tend to worry about and how to overcome them, we have prepared a transition workbook for you, which should have arrived in the post last week. The first video to go with the booklet was put on the website last week. This week we look at session 2 and 3, which are all about unlocking your mind and daring to take risks! Please complete the little series of tasks via this booklet, and hand it in to tutors in your first week!*

*Have a lovely week, and I will be back next Friday, when your form tutors will be introducing themselves to you!*

*All the best*

*Mrs C Skarin*
