

A Level Geography

What is Geography?

Geography is a rigorous academic subject focussed on the issues, both human and physical, in the world around us.

Why study Geography?

Geography is a diverse and engaging subject that covers issues relevant to our world today. It's fun, current and gets you out of the classroom and into your wellies!! On a more serious note, it is a Russell Group facilitating subject, an increasingly popular University degree subject and a useful link between the Humanities and Sciences.

What makes a successful Geography student?

A successful student will be willing to work hard, conduct independent research, meet deadlines and develop:

- an appreciation of the diversity and complexity of the world we live in.
- practical and technical skills relevant to fieldwork, analysis and essay writing.

To study this course, what qualifications will I need and in which subjects?

Grade 5 or above in GCSE Geography and Grade 4 in English Language, minimum of Grade 5 in GCSE Maths.

What is the structure of the course?

* All students taking A Level Geography **must** complete a residential fieldwork session organised by HHS within the UK.

What opportunities are there for me to study beyond the classroom?

At an independent level we encourage all students to read widely and to keep abreast of issues and events relevant to the course. At a group level, we offer revision sessions. We also have a wide library of relevant literature for the most enthusiastic to extend their knowledge beyond the requirements of the course in areas they are interested in.

What kind of career does this subject/qualification prepare me for?

Geography provides you with a set of skills, abilities and knowledge to underpin a good career in the modern and changing world.
