Key features of the SSP programme

Jolly Phonics is a systematic synthetic phonics programme and continues with Jolly Grammar, which extends the teaching to broader based literacy skills. Jolly Phonics teaches the 42 letter sounds (including digraphs) at a fast pace, roughly 4-5 a week, and how, from the beginning, to blend them, in a left to right order, to read unknown words. At the same time they are taught to form the letters correctly, as well as identify the sounds in words. This enables the children to write regular words that use the letter sounds that have been taught. Children are then also taught a number of tricky words (72) and introduced to the main alternatives during the first year of teaching too. The programme continues each year by extending the earlier phonics teaching with further grammar, spelling and punctuation concepts.

- Enables children to meet and exceed the expectations of the Phonics Screening Check and National Curriculum
- Independent research supports the outstanding results achieved with the programme
- Teaching is multi-sensory and active with fun actions, stories and songs
- Resources provide detailed insights on the teaching approach to help and guide teachers
- Flexible, fun and easy to implement in school
- Developed by teachers for teachers

Resources

Schools can choose from a number of core teaching materials to deliver daily Jolly Phonics lessons - interactive classroom software, Jolly Phonics for the Whiteboard; black-and-white photocopiable The Phonics Handbooks; and the full colour Jolly Phonics Teacher's and Pupil Books – each packed with step-by-step guidance for the teacher and opportunities for children to practice what they have been taught.

After the initial year of Jolly Phonics, these core-teaching resources continue with the Grammar Handbooks or Grammar Teacher's and Pupil Books. These resources introduce new spelling; punctuation and grammar concepts, revising and consolidating previously learnt knowledge as new ideas are introduced.

The core teaching resources are supported by an extensive selection of multisensory resources. These resources support your children's learning in a variety of ways, with teachers and children able to:

- Practice and apply phonics skills taught with over 149 decodable readers
- Feel the letter formation in debossed Finger Phonics Board Books
- Enjoy whole-class teaching with the Big Books
- Decorate the classroom with a wide range of colourful posters
- Sing the Jolly Songs and perform actions for each of the 42 letter sounds
- Practice writing and complete activities with Workbooks and Activity Books
- Watch the Jolly characters come to life with DVDs
- Play a series of fun games via the Jolly apps
- Discover new vocabulary and grammar terms with the Jolly Dictionary and Grammar Glossary
- Practice reading and dictation with Flashcards and Word Banks
- Discover letter formation and build decodable words with Magnetic Letters
- Assess reading ability with Reading Assessments

Many of the Jolly Phonics resources are bundled together in our Starter Kit and Classroom Kit, enabling you to get all the best Jolly Phonics resources in one go. See our latest catalogue [here](#)

Training offer

Schools can choose from a number of options.

Whole School Training (remote or in person) - Our Jolly Phonics Professional Trainers - independent, experienced trainers who have achieved excellent results with the programme - are able to provide tailor-made training to meet the needs of your school. Sessions are developed to ensure that there is consistent teaching of the programme throughout your school. Prices start form £950 a day.

Attend a scheduled course (remote or in person) - Meet and network with other teachers. Get lots of practical ideas and advice from trainers who have used the

programme successfully for a number of years and seen the difference it can make to children's learning. Courses added through the school year. Click [here](#) to check when courses are available.

Jolly Phonics and Grammar Online courses - Packed with audio, text and digital footage, these courses provide an interactive and flexible way to study. They will equip you with the skills, knowledge and understanding you need to teach the programme effectively to your class. Each course is £99. Click [here](#) for more details.
