

2D Shape Search

Explore this picture of Pudding Lane.
Count how many of each 2D shape you can find.

I can see _____ circles.

I can see _____ triangles.

I can see _____ squares.

I can see _____ rectangles.

2D Shape Search **Answers**

Due to the problem-solving aspect of the activity, answers may vary. The aim of the activity is to get children talking about and recognising common 2D shapes.

I can see **3** circles.

I can see **9 - 12** triangles.

I can see **4** squares.

I can see _____ rectangles.

(Accept various answers that show pupils have identified rectangles.)
