

## Controlling Google Classroom Notification for Students

After feedback from parents about the number of email notifications from Google Classroom, the platform a lot of the subject areas are using, I have put together some instructions to control this.

The default setting is all notifications generate an email, to stop this follow the instructions below.

Full instructions can be found here. [Google Classroom Help](#)

	<p>In your Google Classroom “home” page find the three line dropdown menu.</p>																
	<p>Scroll to the bottom and find the settings icon. Click on it.</p>																
	<p>Find the notifications section and click on the slider to turn on.</p>																
	<p>You will now get a long list of options with ON/OFF sliders next to them. The two sections students need to think about are shown: Comments. Classes you’re enrolled in.</p>																
<p><b>You can now decide on what notifications you would like</b></p>
