Dear Parents, Carers and Students

10th September 2021

Thank you for your support and co-operation with the students conducting Lateral Flow Tests at school this week. As you know, some tests at school will continue next week until all year groups have had two tests.

Once this has been completed, testing must continue at home with students testing themselves, with your support as required, twice a week. They should conduct a test at home every Sunday and Wednesday evening. If a positive result is recorded at any point the student should isolate and access a PCR test as soon as possible.

The tests the students conduct at home are exactly the same as the tests year 8 to 11 students used before the summer break. The tests will be new to some year 7 students as they are throat and nasal swabs. Full instructions are given with every pack. You do not need to report the results to us unless it is positive.

Packs are to be given to students to bring home today. Each pack contains seven tests which will therefore last until the end of September.

Current guidance states home testing must continue until the end of September. We do not know yet what expectations will be regarding testing after this date.

Thank you for your support

Alastair Ogle
Principal
