Pupil premium strategy statement

Before completing this template, you should read the guidance on <u>using pupil</u> premium.

Before publishing your completed statement, you should delete the instructions (text in italics) in this template, including this text box.

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2022 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Acle Academy
Number of pupils in school	537 (sept 2021)
Proportion (%) of pupil premium eligible pupils	123 (22.9%) (Sept 2021) 121 (Oct 2020) Funding based on Oct 2020 census
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	Sept.2021- Sept 2024 (3 years)
Date this statement was published	October 2021
Date on which it will be reviewed	July 2022
Statement authorised by	Mrs Watts- Principal
Pupil premium lead	Mrs Skarin- Assistant Principal
Governor / Trustee lead	Ms A Wall

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£112,623
Recovery premium funding allocation this academic year	£15,008
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£10, 000

Total budget for this academic year	£137, 631
If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	

Part A: Pupil premium strategy plan

Statement of intent

You may want to include information on:

What are your ultimate objectives for your disadvantaged pupils?

At Acle Academy we are committed to achieving the best possible outcomes for this group of students. We aim for them to thrive as learners, as positive contributors to school and community life, developing key skills and in achieving happy, successful and fulfilled lives. As part of our whole school priority we focus on promotion of literacy across all subjects with a particular focus on developing reading and language acquisition. One of the biggest challenges for our students in order to access the academic curriculum being related to literacy and particularly at KS4 an increase in reading comprehension within the changes to the GCSE curriculum within many subjects, together with the fact that as a result of lockdown there has been a national reduction in students' reading ability, the promotion of literacy is a key objective for us. With low literacy being a key barrier for learning and levels of literacy and PP attainment being intrinsically linked, this is a key area to focus on in order to close the gap between PP and non-PP pupils.

In line with our whole school priority to promote a culture of positive mental health and wellbeing for students, staff and families, and to ensure enrichment opportunities complement the taught curriculum, we want to ensure that our disadvantaged students feel supported by the school and that they are an integral part of our school community and to help the access the wider curriculum. Furthermore, enrichment opportunities will help develop important skills such as teamwork, problem solving and presentation skills, which will benefit students in later life and will also help improve their mental health and well-being as well as fostering effective relationships between staff, students and families. This in turn will benefit the taught curriculum through improved attitude to learning and engagement.

How does your current pupil premium strategy plan work towards achieving those objectives?

In order to meet our objectives, Acle Academy's Pupil Premium strategy plan is structured in accordance with the DFE's and EEF's recommendations of a tiered approach, with focus on Quality First teaching, targeted academic support, and wider strategies. Our pupil premium strategy focuses primarily on development and training of teachers with regards to developing literacy and teaching strategies within the classroom. In line with EEF research we know that what happens in the classroom, makes the biggest difference, particularly for disadvantaged students. Our maintained whole school CPD focus of development of metacognitive, memory and feedback strategies is in line with the EEF recommendations on strategies which can have a significant impact on pupil progress and attainment.

In line with EEF our strategy is a three-year cyclical plan, with ongoing monitoring and yearly reviews. It is centred around diagnosing challenges and needs, basing strategies around evidence and equipping staff, monitoring implementations of strategy and students' progress with yearly evaluation. In diagnosing challenges and barriers to learning, we complete a 360 review of PP students, with a focus on identifying barriers to learning, both academic and

pastoral for our students and parents. We make use of PP interviews and passports, parental and students' surveys, PASS survey, attendance data, behaviour and exclusions data, transition data and GL assessments in order to identify the need for potential targeted academic intervention, peer tutoring or wider pastoral intervention.

In order to meet our objectives, Acle Academy ensures that provision is made to secure the teaching and learning opportunities of all students. In order to ensure our strategy is effective, we utilise both internal and external data including the EEF Teaching and Learning Toolkit and the EEF Guidance Reports when planning the provision for students who belong to the vulnerable groups in order to ensure the needs of socially disadvantaged students are adequately addressed. To ensure successful implementation and sustained impact of the strategy it is planned and aligned with our whole school development and improvement plan and in line with CPD provision.

What are the key principles of your strategy plan?

We subscribe to the DfE guidance that states:

'Evidence suggests that pupil premium spending is most effective when schools use a tiered approach, targeting spending across the following three areas below but focusing on teaching quality - investing in learning and development for teachers.

This evidence base has allowed us to formulate a set of key principles for our Pupil Premium strategy plan:

- We will ensure that Pupil Premium funding is spent on the target group, and that we are aware that within our target group there are a diverse range of needs both existing and emerging.
- We will thoroughly analyse tracking data at departmental level, to identify pupils who are underachieving and endeavour to work out why.
- We will use evidence to allocate funding to big-impact strategies, e.g. evidence and research supported by the EEF.
- We will be relentless in our pursuit of high quality teaching and application of our PP VIP policy, and not rely on interventions to compensate for poor teaching.
- We will support the whole student, through the work of our pastoral team, including supporting them and their families with attendance, mental health and wellbeing.
- We will use achievement data to check interventions are effective and make adjustments where necessary if impact seen is limited.
- We will have a senior leader with oversight of how PP funding is being spent.
- We will ensure that teachers know which pupils are eligible for Pupil Premium.
- We will have a named governor who will oversee and challenge our use of the Pupil Premium.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	For some students eligible for PP, literacy and numeracy skills are lower than age related expectations, which prevents them from making good progress in a range of subjects across KS3 and KS4. (GL assessments)
2	Low level of attainment on entry. Some PP students were adversely affected by the impact of school closures in light of the Covid-19 pandemic; they had limited access to/engagement with remote learning, and will have significant gaps in their knowledge and skills. (SATS/ GL Assessments)
3	A number of HPA PP students are not meeting the stretch required to attain grades 7-9 at KS4 – this can be attributed to a lack of motivation, organisation, study skills, teacher expectations and/or resources. (Tracking data)
4	Some of our PP students have limited access to opportunities, resources and enrichment that would promote wider learning beyond the classroom. This has been worsen by Covid-19. (PP Interviews and application of financial support)
5	Attendance of disadvantaged students lower than non-disadvantaged. Persistent Absentee higher than non-disadvantaged students. (Evidence attendance data)
6	Personal Development Behaviour and Welfare issues among some of our disadvantaged students which has an impact on their wellbeing, motivation and being able to access the learning. (Engage and Reflection data)

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Teachers become more evidence informed in applying effective teaching strategies in their classrooms to maximise student progress to	All PP students meet or exceed targets as a result of quality first teaching.
endeavour to close the PP progress gap. Students will have more explicit instruction in either literacy, feedback or metacognition and as a result will boost their skills, progress and,	All staff are fully aware and equipped to meet the emerging needs of PP students.
in turn, their attainment.	PP VIP policy consistently used as part of quality first teaching to support PP progress
	PP VIP policy monitored during learning walks show that it is consistently applied.
PP students to make close the gap against their peers in Literacy and Numeracy. This	PP students to meet their expected reading age by end of KS3.

will support with vocabulary acquisition and transferable numeracy skills which will support progress overall.

Use of targeted interventions to ensure PP students make similar progress with numeracy and literacy across KS3 as those not eligible for PP.

Targeted interventions are planned to pupil need and remain time limited.

For PP students to enjoy the wide range of enrichment activities we have on offer at Acle Academy and to feel that they are part of our school community.

A wide range of extra-curricular activities will be offered to tap into our children's passions, children will be able to learn new skills, and increase pupils' confidence and resilience encourage pupils to be more aspirational Wide participation by PP students to match that of non PP students taking part in after school clubs, peri- music lessons and other enrichment activities and extracurricular opportunities. (At least 25% PP representation)

PP VIP strategy consistently applied to any opportunities provided by school. PP 25% to be implemented and supported by invitation and preselecting.

Every PP child should by the time they leave have taken part in one or more extracurricular opportunities or interactions.

Attendance will increase for disadvantaged students – including using external agencies to support students' reintegration. For PP attendance to be 'good' compared to national attendance (96%).

Attendance officer will promptly call families who have an absent child without reason. PP VIP applied.

Extremely poor attendance (below 90%) will be challenged and support offered to families, through fast and clear communication. In line with our relational approach the aim is to understand and identify any issues behind the attendance concern, and put support and strategies into place.

Increased engagement with parents, through track and act fast to close any emerging differences in the attendance of PP students when compared with non-PP students.

Half termly review of data tracked and actions put in place.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) this academic year to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £ 10.000

Activity	Evidence that supports this approach	Challenge number(s) addressed
Focus on embedding research informed practices to improve teaching and learning Focus on Feedback as part of quality first teaching and learning, through CPD, 'Walk Thrus' focus and use of the ARC model and the EEF guidance Report of Feedback will inform classroom practice. Maintain our CPD focus of development of metacognitive and feedback strategies in the classroom. Implementation of low stakes /retrieval testing to ensure all students, and in particular disadvantaged students, experience success and celebrate the acquisition of knowledge to build confidence.	Best Practice (EEF +8 months) The EEF Teaching and learning Toolkit suggests that these strategies will enable disadvantaged students to make up to 8 months additional progress when employed successfully in the classroom Sutton Trust – quality first teaching has direct impact on student outcomes. https://educationendowmentfoundation.org.uk/guidancefor-teachers/assessment-feedback https://educationendowmentfoundation.org.uk/educationevidence/guidance-reports/feedback	2
Use of GL Assessments to support diagnosis of disadvantaged students individual learning needs, in order to better equip classroom teachers, support staff, and interventions with the tools to support their learners.	The EEF suggest that investment in diagnostic testing will enable schools to be more evidence informed in supporting the bespoke needs of individuals, rather than a generic approach to interventions. When used effectively, diagnostic assessments can indicate areas for development with individual pupils or across classes and year groups. EEF-Diagnostic-Assessment-Tool.pdf (d2tic4wv01iusb.cloudfront.net)	1 - 2
Whole school strategies on Literacy, including; vocabulary acquisition, tiered vocabulary and Pixl unlock strategies.	The EEF Guidance report on Improving literacy in Secondary Schools, identifies that literacy is key to learning across all subjects in	1-2

secondary school and a strong predictor of Our strategies are informed by the outcomes in later life. EEF Guidance report, and focuses in particular on strand 1, prioritising Disciplinary literacy is an approach to 'disciplinary literacy' across the curimproving literacy across the curriculum that riculum, and strand 2, and providing emphasises the importance of subject specific targeted vocabulary instructions in support. every subject. The EEf Toolkit also identifies that specific reading comprehension strategies which focuses on the learners understanding of written texts can have an average impact of an additional six months' progress over the course of a year. Successful reading comprehension approaches allow activities to be carefully tailored to pupils' reading capabilities, and involve activities and texts that provide an effective, but not overwhelming, challenge. https://educationendowmentfoundation.org.uk/educationevidence/teaching-learning-toolkit/readingcomprehension-strategies https://educationendowmentfoundation.org.uk/education-

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

evidence/guidance-reports/literacy-ks3-ks4

Budgeted cost: £ 60 000

Activity	Evidence that supports this approach	Challenge number(s) addressed
National Tutoring programme – Continued small group intervention in English and Maths with selected students, based on gap in progress as a result of Covid-19.	Evidence shows that there is a substantial attainment gap between pupils from disadvantaged backgrounds and their classmates – and this is likely to have grown significantly since school closures. There is extensive evidence showing the impact of tutoring to support pupils who have fallen behind. The National Tutoring Programme (NTP) will help boost the learning of those pupils most affected by the impact of missed time in school during the pandemic. The programme gives pupils access to one-to-one, online or small group teaching with specialist tutors.	1-2

	We know from the EEF that the average impact of the small group tuition is four additional months' progress, on average, over the course of a year. https://educationendowmentfoundation.org.uk/educationevidence/teaching-learning-toolkit/small-group-tuition	
Funding of Progress Tutors, to lead on targeted Maths and English intervention led by progress tutors, to deliver targeted catch up sessions. To create an 'extra set' in year 7 for English and Maths. This will allow teachers to work with slightly smaller classes and will allow for a smaller 'nurture' group to offer the most vulnerable, low prior attainers to work on a more personalised curriculum. Progress Tutors will also be responsible for leading on bespoke English and Maths interventions, as well as working with the head of faculty to adapt the wider curriculum in English in response to the GL assessment outcomes and gaps in knowledge being identified. To deliver a bespoke reading strategy programme created by our Literacy Lead, for disadvantaged Y7 and Y8 students whose reading age is below 10 years.	Pre and post assessment data for students receiving tuition suggest that most students make rapid progress and the EEF toolkit informs us that small group tuition can have the impact of up to 5 months additional progress. Internal GL Reading assessment in conjunction with the NGRT profiles identify specific reading skill deficiencies amongst disadvantaged students, in particular inference, which we know are crucial in being able to make progress and access the curriculum and assessments. Progress Tutor led intervention via the Rapid Plus Programme will be addressing these gaps in reading skills through bespoke literacy intervention. Progress tutor will also mentor targeted KS4 disadvantaged students which the EEF suggests can add an extra one month of progress. Evidence will be from the Progress Tutor tracking sheets, impact evaluation and Year 11 outcomes. https://educationendowmentfoundation.org.uk/educationevidence/guidance-reports/maths-ks-2-3 https://educationendowmentfoundation.org.uk/educationevidence/teaching-learning-toolkit/small-group-tuition	1-2
PP Study Skills Tailored programme. Focusing on teaching them specific metacognition and self-regulation approaches. Membership for 12 high-prior attaining students (the large majority of which are PP) to take part in the Brilliant Club. The aim is to increase the number of pupils from under-represented backgrounds progressing to highly selective universities.	According to EEF the potential impact of metacognition and self-regulation approaches is high (+7 months additional progress). The EEF also states that Metacognition and self-regulation strategies can be effective when taught in collaborative groups so that learners can support each other and make their thinking explicit through discussion. Interventions are usually designed to give pupils a repertoire of strategies to choose from and the skills to select the most suitable strategy for the task.	1 - 3

Maximise Potential motivational speakers to speak to all year 11s regarding exams and their future following its success in previous	In addition, targeted intervention programmes can have a positive effect on raising motivation and aspiration.	
years.	https://educationendowmentfoundation.org.uk/education- evidence/teaching-learning-toolkit/metacognition-and- self-regulation	
	https://educationendowmentfoundation.org.uk/education- evidence/guidance-reports/metacognition	

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £67 631

Activity	Evidence that supports this approach	Challenge number(s) addressed
Attendance officer to ensure adequate systems are in place to track attendance and support families in improving student attendance. Collaboration between attendance officer, Pastoral Team, and PP lead to identify barriers to attendance and put early intervention into place to improve attendance – including reintegration processes and engagement of external agencies. Other strategies included: Communicating the importance of school attendance to families Having awards for high attendance, and pupils meeting specific attendance targets. Creating displays in the school, promoting and celebrating high attendance	Research into both school absenteeism and truancy has consistently shown that a much higher and disproportionate number of pupils who come from deprived social backgrounds are more likely to miss school, play truant and underachieve than their peers who come from more favourable social and economic home backgrounds. https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/parental-engagemen	5
Emotion Coaching- To promote a school culture of positive mental	EEF states that the average impact of behaviour interventions is four additional months' progress over the course of a year. Evidence suggests that, on average,	7

health and wellbeing for students, behaviour interventions can produce staff and families. moderate improvements in academic performance along with a decrease in problematic behaviours. To focus and promote a relational approach across all school interaction and communication, Approaches such as improving teachers' acknowledging the need to be behaviour management and pupils' cognitive attachment aware and trauma and social skills are both effective. Other informed. targeted interventions and universal approaches have positive overall effects (+ 4 months) according to the EEF. All staff to take part in Pivotal behaviour management training, to develop knowledge and to best be According to figures from the Department for able to help students develop the Education, pupils who receive Free School Meals are more likely to receive a permanent skill of empathy and to recognise and regulate their own emotions or fixed period exclusion compared to those and reactions. who do not. The most common reason for exclusion is persistent disruptive behaviour. Pupil behaviour will have multiple influences. some of which teachers can directly manage though universal or classroom management approaches. Some pupils will require more specialist support to help manage their selfregulation or social and emotional skills. https://educationendowmentfoundation.org.uk/educationevidence/teaching-learning-toolkit/social-and-emotionallearning https://educationendowmentfoundation.org.uk/educationevidence/teaching-learning-toolkit/parental-engagemen Behaviour interventions | EEF (educationendowmentfoundation.org.uk) https://educationendowmentfoundation.org.uk/educationevidence/guidance-reports/behaviour Parental Engagement- Key Parental engagement has a positive impact on 4-5-6 elements to implement include: average of 4 months' additional progress. It is crucial to consider how to engage with all tailoring communications to parents to avoid widening attainment gaps. encourage positive dialogue There are also higher impacts for pupils with about learning low prior attainment. regularly reviewing how well the school is working with parents, https://educationendowmentfoundation.org.uk/educationidentifying areas for evidence/teaching-learning-toolkit/parental-engagement improvement offering more sustained and Working with Parents to Support Children's Learning | intensive support where EEF (educationendowmentfoundation.org.uk) needed approaches and programmes which aim to inform and support parents to develop

skills such as literacy, emotional relations, or IT skills;		
Diagnostic tools, such as Boxall, and the PASS Survey to identify social and emotional barriers to learning and target support. Pastoral support packages through Engage, Reflection, ELSA's, Wellbeing Group and Attendance lead with focus on identifying and supporting with regards to barriers to engagement.	Evidence from the EEF indicates that mentoring can have a positive impact on academic outcomes by accelerating learning by approximately one month with students from disadvantaged backgrounds. Positive effects have also been reported in attitudes to school, attendance and behaviour. The EEF Toolkit suggests that targeted interventions matched to specific students with particular needs or behavioural issues can be effective, especially for older pupils. https://educationendowmentfoundation.org.uk/educationevidence/guidance-reports/behaviour	6
To ensure that all disadvantaged students have access to resources to aid their revision and preparation for GCSE exams, including a particular focus on and support for HPAs – leading to better attainment in their terminal examinations. Support for art/technology/PE with practical equipment and ingredients, music lessons and transport to improve cultural capital and aspiration. Financial support for trips and activities, support for targeted careers advice and activities. Provision of online library and reading app, as well as devices for disadvantaged students to be able to access these resources.	To ensure that disadvantaged students have everything they need to aid with their learning and revision in all Subjects. The EEF suggests that evidence indicates that, on average, students make two additional months' progress per year from extended support via participation in academy programmes and extracurricular activities. Higher attainment in reading indicates better life chances. Reading a wide variety of genres will support vocabulary acquisition. https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/physical-activity https://educationendowmentfoundation.org.uk/education-evidence/guidance-reports/digital	3-4
Ensure enrichment opportunities complement the taught curriculum and help to engage learners in the wider curriculum offer- with	Students who are exposed to these have an enhanced knowledge and understanding of the world. When finance isn't a factor for families, they almost always want their children to experience these.	4-5-6

Service pupil premium funding (optional)

For schools that receive this funding, you may wish to provide the following information:

Measure	Details
How did you spend your service pupil premium allocation last academic year?	N/A
What was the impact of that spending on service pupil premium eligible pupils?	N/A

Further information (optional)

Use this space to provide any further information about your pupil premium strategy. For example, about your strategy planning, or other activity that you are implementing to support disadvantaged pupils, that is not dependent on pupil premium or recovery premium funding.

In planning our new pupil premium strategy, we evaluated why activities undertaken in previous years had not had the degree of impact that we had expected. We also commissioned a pupil premium review to get an external perspective.

We used the EEF's families of schools database to look at the performance of disadvantaged pupils in school similar to ours, and the Pupil Premium lead has been in contact with schools with high-performing disadvantaged pupils to learn from their approach.

As a school we have rewritten our Strategy, with a focus on Quality Frist teaching, with any interventions and actions being rooted and linked back to evidence-based practice. We looked at a number of reports, studies and research papers about effective use of pupil premium, the impact of disadvantage on education outcomes and how to address educational disadvantage.

In addition to the pupil premium funded activity outlined above, we have put in place stronger expectations around areas of effective practice, notably feedback and metacognition in the classroom given the scale of impact of this identified by the EEF Toolkit. We have used the EEF's implementation guidance to set out our plans and put in place a robust evaluation framework for the duration of our three-year approach. This will help us to make any necessary adjustments and quality improvement to secure better outcomes for pupils over time.
