Dear Parent/Carer

I am writing to inform you about some Science resources that have been emailed to year 11 students and also put onto the website, for all to use.

These resources are:

- * Student checklists of statements of knowledge and skills that students should have for each lesson of every chapter of each subject. There is one set for the separate scientists and one set for the double trilogy scientists. This can be used by students to highlight areas that they are weaker/stronger in, and so focus revision where it is needed.

- * Core knowledge booklets, for each subject, Biology, Chemistry and Physics. These contain all the common questions and answers that students could be asked in the exams. These can be used as question and answer booklets for family member to test the students on their knowledge, and as a memory tool by the students themselves.

Yours sincerely

Mrs S Kelly

Head of Science
