

Year 5 Home Learning - Spring 2

Dear Parent /Carer, over the next 4 1/2 weeks your child will need to complete 3 of the activities below. Please complete your activity at home and then upload a photo or video onto Class Dojo so that we can show our classmates our home learning safely in school.

Origami

Our text in English is linked to Origami - can you create some amazing origami to bring in and hang up in the classroom. There are lots of websites to give you ideas.

Instructions

Create either a written set of instructions or a video to show us how to make your chosen origami.

Art

In Art we are looking at portraits - can you create a portrait of someone in your family - maybe you could make it out of unusual materials?

Crime and Punishment

Choose a period of time to create a poster about. How were people treated by the criminal justice system? What were the tests to see if you were a witch? You could create a beware of witches poster and tell people what they need to look out for.

Maths

We have been looking at fractions in maths - can you play the fraction matcher game? What is the highest level you can get to? Use the following link to get to the game.

https://phet.colorado.edu/sims/html/fraction-matcher/latest/fraction-matcher_en.html

Get Creative!

Bake a cake to show how ingredients change when cooked. This links with our Science on Materials and Change.
