

Year 4 Home Learning - Spring 2

Dear Parent /Carer, over the next 4 weeks your child will need to complete 3 of the activities below. Please bring in your homework book on Fridays to show the class your completed homework.

City Research

Research a city in the UK of your choosing. Create a fact file of information that you find out. This could include key landmarks, population, where it is in the country, etc. You can present your fact file in any way you choose.

Times Tables

Choose a times table that you find more tricky. Make it your mission to learn and remember it! You could find a song to sing, create a poster, play online games or any other way of practising it until you know it confidently.

Water Cycle

Find out more about the Water Cycle and create a way of helping other children to learn about it. It could be a video, poster, board game, flash cards - however you wish to do it!

Marvellous Meal

Can you safely help a grown up at home to prepare and cook a meal? What ingredients did you need to use? How did you prepare the food safely?

Potato Printmaking

Have a go at printing using the technique of potato printing. What repeating patterns can you create? Make sure you do this activity safely with an adult.

12 and 24 Hour Time

Practise telling the time on a digital and analogue clock. Can you practise telling the time on a 24 hour clock? There are some great websites online to help with this.
