

4th July 2025

Dear Parent and Carer

Curriculum Enhancement Week Pathways 7th - 9th July & Sports Day 10th July 2025

We hope that your child is looking forward to our first Curriculum Enhancement week which will be running next week. You will have received information from the trip leader regarding the itinerary for your child's selected pathway but children can also check the notices on their ClassCharts group regarding important information. Students have been reminded of all the information they need in their form time today.

All students can wear non uniform Monday through to Wednesday but we have reminded students about our non-uniform expectations. If a child wears inappropriate clothing, they may lose the opportunity to participate in their activity. Please check our parent handbook on our website for further details.

The school canteen is open throughout our Curriculum Enhancement Week as normal. As many staff are involved in a variety of trips, please bear with us in terms of communication as it may take us slightly longer to get back to you. Our phone lines and reception will be open as normal.

May I also remind parents that Thursday is our Sports Day. Students should come to school on Thursday in their PE kit. Please ensure they have sunscreen, a hat and water bottle as it is likely to be a hot day.

We hope your child enjoys their activities next week. If you have any questions regarding your child's pathway, please contact the Pathway leader or the main school office.

Kind Regards

Mrs H Watts
Executive Principal
