[w/c 17 November – Week:1](#)

MESSAGE FROM..... MR SULLY, ASSISTANT PRINCIPAL

We have been incredibly impressed with the way students have approached their preparations for the upcoming PPEs. Their positive attitude to learning in lessons has been evident, with many demonstrating real focus and determination. Engagement in after-school and in-class interventions has also been excellent, reflecting students' commitment to doing their very best. We are particularly pleased to see so many students making effective use of the revision strategies taught in lessons—especially the *blurting* technique—which is helping them consolidate knowledge with growing confidence.

As we begin PPEs next week, it is vital that students maintain their excellent effort and continue building on the strong foundations they have already set. Strong attendance and punctuality—both to school and to each PPE session—will ensure they are fully prepared and able to perform at their best. Students can further support themselves by sustaining their revision routines and looking after their wellbeing, particularly through healthy sleep habits, balanced nutrition, and time to rest. Please remember that our Pastoral Team remains available should any student need guidance or reassurance during this period. We value our partnership with home enormously, and we want to thank you for your continued support in helping your child navigate this important stage with confidence and resilience.
