**Re: APHS Swimming Pool – Temporary Closure**

Dear Member of the APHS community

I am writing to inform you of a temporary closure of our school's swimming pool facilities. Following a recent inspection of underground pipework connected to our pool infrastructure, it has become clear that this requires further investigation and repair.

Therefore, from 09:00 on Thursday 20th November 2025, the APHS Swimming pool will be temporarily closed. This is so that we can drain the pool and conduct the necessary investigations.

At present, we are unable to specify the exact duration of the closure, as this will be contingent upon the findings of our expert inspection reports. However, we are committed to getting the pool back open as quickly as possible.

We are committed to maintaining transparency and will provide updates to our local community as soon as we have more information regarding the repair timescales.

We appreciate your understanding during this necessary maintenance period and apologise for any inconvenience caused.

Yours sincerely

Matt Hardman  
Principal  
Alderman Peel High School
