Home Visits

Starting school is a big and exciting step, and our home visits are intended to help make this transition as smooth and positive as possible.

Before your child begins Reception, on one of the following dates, your child's teacher and teaching assistant will arrange a short visit to meet you and your child in the comfort of your own home.

29th June, 7th July, 10th July Panda Class

6th July, 8th July, 10th July Tiger Class

This is an opportunity for us to begin building a friendly, trusting relationship, get to know your child in a familiar environment, and learn about their interests as well as any needs they may have. It also gives you the chance to ask questions, share important information, and feel confident about your child starting school. These visits are informal, relaxed, and centred around helping your child feel happy, secure, and ready for their first days with us. You don't need to do anything special to prepare for our visit and please be reassured that the purpose of the visit is not to inspect your home - we definitely won't be noticing whether you've hoovered or not!

We will need to arrange a visit time for the Reception teacher and teaching assistant to come and visit your child so this is another reason that it is really important that you fill in the admission form and the further information google forms we have email home so that we can allocate children to classes promptly and give you the notice that you will need to arrange to be at home when we visit.

Yours sincerely,

Sarah

Sarah Spears
